INICIATIVA

A diagram of a hexagonal lattice structure. It features a central hexagon formed by dashed lines. This central hexagon is surrounded by a larger hexagon formed by solid lines. The space between the two hexagons is divided into six trapezoidal regions, each containing a solid line segment. The entire structure is set against a background of a larger hexagonal lattice of solid lines.

A blank template for a 3D cube. It features a central square with a dashed border and rounded corners. This central square is surrounded by four rectangular flaps, each with a dashed border and rounded corners. The flaps are shaded with a light gray grid pattern. A small pencil icon is located on the bottom flap, and a small scissors icon is located on the right flap. The template is designed to be cut out and folded into a cube.

1.  Cut out carefully with a sharp knife or scissors, using the | marks as guides
2.  Fold along the dotted lines, making sure the  hatched areas are hidden or face down
3.  Optionally, fix it with glue
