**INITIATIVE
MARKER**

Name _____

A diagram of a hexagonal lattice. It shows a central hexagon formed by dashed lines, with two smaller hexagons attached to its top and bottom edges. Solid lines form a larger hexagon around the central dashed hexagon. The lattice is composed of solid lines forming a larger hexagon, with dashed lines forming two smaller hexagons inside it.

1.  Cut out carefully with a sharp knife or scissors, using the  marks as guides
2.  Fold along the dotted lines, making sure the hatched areas are hidden or face down
3.  Optionally, fix it with glue
