A diagram showing a hexagonal lattice structure. Two adjacent hexagons are outlined with dashed lines. At each of the six vertices of these hexagons, there is a small black arrow pointing outwards, perpendicular to the dashed boundary. The arrows on the outer vertices point away from the lattice, while the arrows on the shared boundary vertices point towards the center of the lattice.

1.  Cut out carefully with a sharp knife or scissors, using the | marks as guides
2.  Fold along the dotted lines, making sure the  hatched areas are hidden or face down
3.  Optionally, fix it with glue
