**INITIATIVE**

A diagram of a hexagonal lattice structure. It features a central hexagon formed by dashed lines. This central hexagon is surrounded by a larger hexagon formed by solid lines. The space between the two hexagons is filled with a pattern of solid lines that form a honeycomb-like structure. The overall shape is a large hexagon with internal dashed and solid lines creating a complex geometric pattern.

1.  Cut out carefully with a sharp knife or scissors, using the  marks as guides
2.  Fold along the dotted lines, making sure the hatched areas are hidden or face down
3.  Optionally, fix it with glue
