MARKER

Name _____

A diagram of a hexagonal lattice structure. It features a central hexagon formed by dashed lines. This central hexagon is surrounded by a larger hexagon formed by solid lines. The solid hexagon is composed of six smaller hexagons, each sharing a side with the central dashed hexagon. The entire structure is part of a larger lattice, with lines extending outwards from the corners of the solid hexagon.

1.  Cut out carefully with a sharp knife or scissors, using the | marks as guides
2.  Fold along the dotted lines, making sure the  hatched areas are hidden or face down
3.  Optionally, fix it with glue
