INITIATIVE

A diagram of a hexagonal lattice. It features a central hexagon formed by dashed lines. This central hexagon is surrounded by a larger hexagon formed by solid lines. The space between the two hexagons is divided into six trapezoidal regions by solid lines. Each of these regions contains a dashed line segment that connects the two hexagons. The entire structure is composed of black lines on a white background.

1.  Cut out carefully with a sharp knife or scissors, using the marks as guides
2.  Fold along the dotted lines, making sure the hatched areas are hidden or face down
3.  Optionally, fix it with glue
